- Computer Networks

PROFESSIONAL SUMMARY

Program Director with 25 years of experience in the IT services industry managing complex IT infrastructure projects and delivering IT services across Hardware, Software, and Network domains. Expertise encompasses leading transitions, managing transformations, and delivering managed services across Data Center Infrastructure, Cloud Computing, Servers, Networks, Storage, Backup, End-User Computing, Enterprise Applications, and Cybersecurity.

Proven ability to align IT initiatives with business goals, ensuring operational excellence and driving successful outcomes across industries in North America, Europe, and Asia. Strong leader with over 7 years of on-site experience in the USA and business engagements in the UK, Italy, and Malaysia. Skilled in managing cross-cultural teams and delivering results in onsite-offshore models. Recognized for building strong stakeholder relationships, fostering collaboration, and resolving conflicts to achieve organizational goals.
